PROFILE

Recent Computer Science graduate with a year of part-time experience in IT support and a strong interest in backend development. Enjoys automating repetitive tasks and learning new tools.

EXPERIENCE

IT Support Assistant (part-time) - Northbridge Library Services, Manchester — Sep 2023 - Jun 2024

- Resolved around 30 helpdesk tickets per week covering hardware, printing and account issues
- Wrote a Python script to automate weekly user-account reports, saving roughly 2 hours per week
- Set up and imaged 40 laptops for a new public computer suite
- Created step-by-step guides for staff on common software problems

Retail Assistant - Greenway Supermarkets, Salford — Jun 2021 - Aug 2023

- Served customers in a busy store and handled cash and card payments
- Trained four new starters on till procedures
- Helped reorganise stock-room layout to reduce restocking time

PROJECTS

Room Booker - Final-year project: Flask + SQLite web app for booking study rooms

- Implemented user login, booking conflicts check and an admin view
- Wrote unit tests with pytest for the booking logic

Budget Tracker CLI - Command-line tool that categorises bank CSV exports

- Parses CSV files with pandas and produces monthly spending summaries

EDUCATION

BSc (Hons) Computer Science, 2:1 - University of Salford — 2021 - 2024
